

What is a Life Plan Community?

Ohio Living Westminster-Thurber is a life plan community; that means our campus was designed to provide residents with the varying levels of care they may need as they continue to age in place. Our community isn't one size fits all – we have options to meet your needs both now and in the future, however that unfolds.

Independent Living

Our independent living apartment homes allow you to fill your calendar with activities and social events, instead of home maintenance. Your choice of one-, two- and three-bedroom floor plans include a meal plan, maintenance of apartment and furnished appliances, 24-hour emergency systems, transportation to community outings and all of our community amenities.

Independent living residents also benefit from having first access to additional levels of care, including home health and hospice, when they are needed.

Assisted Living

For those who need some assistance with their activities of daily living, such as handling personal needs or taking care of meals and laundry, assisted living offers customized care plans in a comfortable, home-like setting.

Traditional

Studio and one-bedroom apartments are designed for those who need a helping hand with daily activities and medication management.

Memory Care

Our secure memory care neighborhood provides private apartments and specialized programming for those who live with memory loss or dementia.

Long-Term Nursing Care

Those who need 24-hour personal and medical care receive customized services from our nursing team.

Short-Term Rehabilitation

Rehabilitation after a hospital stay offers regular nursing care and an elite therapy team to create your personalized recovery plan.
